HOWELL IN THE ASCENDANCY

Gets Majority of Delegates to Republican State Convention From Weber County.

LIVELY FIGHT IN PRIMARIES.

Great Enthusiasm at Gatherings—Some Disappointments—List of Delegates From City and County.

Ogden, Sept. 15.—At the Republican primaries held last evening to elect delegates to the state convention, the greatest enthusiasm ever witnessed at such meetings in Ogden was exhibited in all the gatherings. There were two factions present at the meetings, those for Joseph Howell for congress, and an anti-Howell faction. Indications are that a majority of the delegates elected will be for Mr. Howell. The liveliest fight was on in the seventeenth precinct, where William Glasmanides. He desired to be a delegate and had his forces at work. The opposition won out over him. He was elected Harry Sims, who received 10 votes and Mr. Glasmanides 26. The 10 votes on in real earnest and in two of the wards those desirous of being delegates had closed carriages out to get their supporters to the voting place. There were fully 200 people present and in two of the other wards there was an unusually large attendance. Those opposed to the renomination of Mr. Howell admitted after the meeting that they had not succeeded in getting a majority of the delegates, as the Howell people feel confident they will be able to poll at least 45 votes from Weber county for their man. The balance of the delegation will be divided between Parley P. Christensen and Frank Fishburn. Between now and the date of the state convention a hard work will be done by the two aspirants for nomination of the Republican ticket for Congress.

The delegates elected are: First Ward—Charles Layne, John Lewis, Henry Wade, George Wilson, Leon Browning, Thomas Carr, George Meyer.

Second Ward—W. C. Howell, E. W. Kennedy, Martin Cleary, D. T. Tracy, Peter Lowe.

Fifth Ward—Thomas Davis, Daniel Park, W. J. Dalrymple, J. W. Wilcox, A. A. Meyer, Fred P. Dalton.

Sixth Ward—George Ritchie, Nora Orleson, Al Toome, Ben West, E. G. Child, Jr., Harverson, F. A. Miller, Liberty, O. A. Penrod.

Edna—James M. Shupe, McKay—W. G. Smith, Mack—Cy-Thos. England, Wm. Gagnon.

ROLDUPS SHOOT COLORED MAN.

I. N. Harper Has Thrilling Experience With Footpads Who Escape.

Ogden, Sept. 15.—I. N. Harper, the colored chef at the Reed hotel, was held up last night shortly before 9 o'clock by two masked men and shot in the left arm because he did not obey their command to hold up his hands quickly enough to suit them. Harper lives at the rear of Twenty-fifth street just east of Wall avenue. He had been out to buy a watermelon and was returning home with the melon under his arm. He had only turned east on the little dark avenue leading up to his home when the two men sprang suddenly in front of him and ordered him to hold up his hands. Harper did not understand the request of the men and they repeated the demand with more strong language and fired a shot at him. Harper started to run and a second shot effecting him, Harper's left arm. The hold-up man turned and ran to Wall avenue to his home and notified the police who quickly responded to the call, but were unable to get any trace of the men. Several cab men who were in front of the hotel saw the men and disappeared south along the avenue and disappeared.

OPENING OF WEBER ACADEMY.

Big Stake School Will Commence Season's Work Monday, Sept. 17.

Ogden, Sept. 15.—For some time past one of the busiest places in the city has been the Weber stake academy. In addition to the work going on in the erecting of the new building, calculators, paperhangers, painters and cornice workers have been occupied in repairing, cleaning, and renovating the present building. As a result, everything is now ready for the opening of school on Monday, Sept. 17. The first day will be registration and assignment of students, and on Tuesday, Sept. 18, formal opening exercises will be held in the assembly room, to which the public is cordially invited.

The faculty of the present year is as follows: David O. McKay, principal; John G. Lind, curator; William Z. Terry, registrar and treasurer; Wilford M. McKendrick, Sylvester D. Bradford, Jennette McKay, Joseph Ballantyne, Sarah T. Evans, Daniel R. Shurtliff, Le Roy Cowles, M. Rich Porter, John McClellan, Willard Welthe, E. W. Nichols.

The domestic arts department of the

academy has become so popular that many girls and women have applied for this course, and have been refused because of lack of room, and accommodations. Then, too, this course is offered as one of the regular courses, and if special students were permitted to register only for domestic arts, the regular students would be deprived of advantages to which they are justly entitled.

Steps are being taken to establish a conservatory of art, in which the faculty desires to include the art of china painting.

The new building is progressing rapidly, and will no doubt be completed outside before Nov. 1.

BRIEFS AND PERSONALS.

B. Y. UNIVERSITY NOTES.

The Brigham Young university opened this week with bright prospects for a large attendance and a successful year's work. The enrollment this far is greater than at any similar time in previous years. The new students have passed the 500 mark and the third and fourth year classes are well filled.

Every department in the training school was filled early on Monday, and owing to lack of room many were referred to the dormitories.

The good work done in the district schools of this and surrounding counties is shown in the class of students entering the first year classes. They seem well prepared to take up the new work with energy and determination.

Among the new teachers who began class work on Wednesday are Prof. Lewis A. Merrill and William H. Homer in the department of agriculture; Prof. Chester Snow, department of physical science; Prof. F. W. Kirkham, department of English; and Dr. Elmer E. Hinckley, medical department.

Miss Ella Larsen, director of the training school; Miss Aretta Young of the art department; and Prof. Walter E. Cluff of the English department have returned from their study in eastern universities and began work on Wednesday.

The music school is already preparing to give its usual terms of first class music. Director Moses Gudmundsen, who has charge of the orchestra, won the hearts of the students with his violin on Wednesday morning. Misses Mabel Borg and Hazel Taylor, whose talents are well known, have been engaged as instructors in instrumental and vocal music.

Wilson H. Dusenberry, member of the board of trustees, Prof. Corey and Prof. Roylance of the U. of U. were among the visitors on Wednesday morning. During the day the professors visited various schools and departments in the university. Prof. Roylance expressed an agreeable surprise at the good equipment of our training school.

The Sunday school work will be resumed on Sunday morning. The classes are conducted for the benefit of students who come from outside cities and towns and are not members of the ward schools in Provo.

The kindergarten department has joined the normal school and is prepared to accept a prominent part in the development of the state. Hereafter the graduates will receive normal kindergarten diplomas.

Prof. J. E. Hickman has been granted leave of absence for this year. He will leave for study in the east in a few days.

Mr. Erling Bjornson, who has been lecturing in Utah cities during the last month, paid a visit to the school on Friday morning. He spoke in his native language to the students in devotional.

DEATH OF DAVID VAN WAGENEN

David Van Wageningen died unexpectedly at his home in the Third ward, Thursday evening, from the effects of an apoplectic stroke. The deceased was a native of New Jersey, where he was born 63 years ago. He was the son of the late John H. He came to Utah with his parents in 1852, locating in Provo, and in '62 moved to Provo valley, where he located in Midway, about a prominent part in the development of that place. He was bishop there for 17 years, and held other positions of trust and responsibility. In 1897 he returned to Provo, where several of his sons had located and engaged in business, and he has since then made his home here. He leaves a wife, six sons and four daughters, and numerous other relatives and many friends to mourn his death.

You Cannot Be Too Careful

Do not guard too well this Catarrhal Curse that "comes like a thief in the night" and before you realize it, is sapping away the life blood of your loved ones.

CATARRH.

When a known contagious disease makes its appearance in a community the municipal authorities promptly enforce the strictest sanitary regulations, and by confining it to one place the doctor is able to check it and quickly stamp it out. But when Catarrh makes its appearance in a family the family physician, ignorantly or maliciously, advises that it is not a serious matter—"a slight cold," and the like, and that there is no danger of complications of infection, and consequently the people are misled into allowing a little thing to grow and being of their guard, we soon have thousands of infected people and the disease runs on unchecked until the whole system is a mass of corruption and poison. Thus like a tiny hole in a dam the germ starts little and insignificant at first, but gradually growing and gaining in volume until it bursts upon the startled vision like a torrent and the mischief is done. Beware of little things; and the big things will take care of themselves. If you have Catarrh no matter how slightly—GET CURED NOW—DON'T ALLOW IT TO RUN ON AND RUN YOUR HEALTH—IT DON'T TAKE LONG FOR COMPLICATIONS TO ARISE.

HAY FEVER.

So many patients have applied to Dr. Shores and Shores for treatment lately who have been suffering from Hay Fever and did not know what their trouble was that Dr. Shores have decided to explain the symptoms, effects and treatment of Hay Fever, that all may tell it at a glance. In the beginning of an attack of Hay

OZEANA

OR FETID, BAD SMELLING, CATARRH.

Some Information Purely and Simply for the Benefit of Suffering Humanity Given by Dr. Shores, the "People's Doctor."

Ozeana is a form or stage of Catarrh that for centuries has been the subject of much dispute, and is one of the most difficult conditions to cure. In ancient times one unfortunate enough to be a sufferer from it was excluded from the privileges of priesthood, and in more modern days it has actually been ruled sufficient ground for divorce. It is known under a host of names, such as dysodora, rhinorrhoea, coryza, fetid, fetid Catarrh, dry Catarrh, stinging, punaise, rhinitis atrophica, rhinitis atrophica fetida, etc., and the most fitting of all appellations is perhaps the ancient one, ozeana, which, in Greek, signifies a stench, and applied, means bad-smelling Catarrh.

It occurs in all diseases of the mucous membrane of the nose, where there is any alteration, and Catarrh is always the result of neglect or mismanagement, causing the mucous surface and causes death or rotting away of the bone. It may result, too, from simple cold in the head by decomposition of the mucous discharges if proper care and treatment is not used to keep the mucous lining of the throat and nose clean and healthy. While it is not necessary that every case of simple Catarrh should result in this horrible condition, it is an absolute fact that Catarrh is a "stinking Catarrh" and is always the result of neglected or what amounts to the same, badly treated simple Catarrh.

If the patient lies on the side, the nasal passage which is uppermost becomes open, while the fluid collects in the parts below; or if the patient lies on his back the fluids collect in the portion, causing a complete stoppage of the nasal passages. The fluids which escape from the nose are often irritating around the opening of the nose and lip, and very frequently give rise to irritation around the opening of the nose and lip, and very frequently result in eczema. The eyes become congested and the lips red and itching. If the disease is allowed to run, an attack of asthma often sets in. The asthmatic symptoms are usually confined to the night time, although the waking hours are often characterised by shortness of breathing, which the patient describes as wheezing. Hay Fever is a treacherous disease, but almost every case yields to proper care and treatment. Every sufferer from this insidious and deceptive disease should consult Dr. Shores & Shores at once.

What "Weakness" is and How We Cure it.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early discharges or by the improper treatment of some contracted disease. A complete and radical cure is, therefore,
